

Fly SAFARI AIR LINK

EMAIL: TZ: flights@flysaf.com or UK: flightsUK@flysaf.com

Valid for 2011: Rates Effective from 1st January 2011 until 31st December 2011 (issued 1st September 2010)

Safari Air Link was established to link the remote Western & Southern Game Parks with the Swahili Coast of Dar & Zanzibar

To allow for easier & cheaper access between these diverse remote wildernesses Safari Air Link has created a Flying Safari that offers the opportunity to small parties or singles to reach remote parks that would otherwise be prohibitively expensive. Scheduled flights enable passengers to buy a seat at scheduled times rather than going to the expense of privately chartering the plane to use at their convenience. Please check in for all flights 30mins before departure.

Consequently our guests are likely to be sharing these aircraft with other passengers travelling between the same parks and depending on the requested airstrips the departure and arrival times may vary slightly to that advertized below. We therefore request Tour Operators re-confirm actual departure and arrival times with our Flight Operations Office which can be reached at:

Contact Details: Tel or SMS: +255(0)777 723274 (SAFARI) or +255(0)773 723274 (SAFARI) or Tel/Fax +255(0)22 550 4384 or UKTel+44(0)1452862288

General Conditions of Carriage and Terms of Business:		Back to Top
Important notices:		
Check-in	Check-in is 30 minutes before the flight shown on the flight coupon or e-ticket voucher but the flight departure and check-in time maybe updated by the Flight Dispatch Office at anytime prior to departure. Safari Air link reserves the right to re-allocate seats if they are not claimed 15 minutes before the departure time and Safari Air Link bears no responsibility for the direct or indirect costs resulting from passengers missing a flight due to non-compliance, for whatever reason, with the above Check in times. Seat reservation must be accompanied by payment in full. To ensure on-time departure you must plan to arrive at the airport and report to the check-in counter in good time before the departure time. Flights cannot be held for passengers arriving late and no responsibility can be accepted in such cases. It is therefore in the interest of the passenger to reconfirm with the Flight Dispatch Office 72 hours ahead of departure and to plan to be at the airport early enough to ensure check-in with sufficient time. During Check-in passengers will be required to prove their identity by passport or other identity document containing a photograph.	
E-Tickets	Paper tickets are not required but Passengers must quote their reference number at check in and the reference number must match the Passenger ID prior to boarding. Tickets issued for carriage on Safari Air Link flights are strictly applicable to the carriage of the ticketed person and are not transferable to another person unless, in exceptional circumstances, the senior management of Safari Air Link have so agreed in writing or by e-mail.	
Minimum 2 pax	All "planned" and "on request" flights are subject to availability at the time of booking. Rates are per seat on one way basis (unless stated otherwise) and require a minimum of 2 passengers for the flight to operate. Except with "Inducement flights" where 2 passengers may not be deemed sufficient traffic and to make the flight possible either further passengers must be booked or the additional costs covered to justify the flight. All 'planned' and 'on request' flights will be temporarily re-categorized as 'inducement flights' during the low season between 15th March and 1st June. At its sole discretion Safari Air Link may impose a requirement for a minimum number of passengers to be booked to a particular destination before operating that particular flight.	
Reconfirmation of Departure & Arrival Information	Please reconfirm your flight with the Flight Dispatch Office at least 72 hours before the departure of your flight. Failure to reconfirm will result in the cancellation of your reservation. Precise timings and routes may vary. The times advertised in the above price list are estimated times of departure and arrival and are therefore approximate and not guaranteed. Unless the Flight Dispatch Office informs you of a change in departure and arrival times at reconfirmation please adhere to the times stated on your flight coupon or e-ticket voucher. Safari Air link is not responsible for any direct or consequential costs resulting from any delays to its services.	
Communications and Control	Pilots are very experienced and are in two way communication with Air Traffic Control and the Safari Air Link Flight Office. The Captain maintains absolute command at all times and has the complete authority to refuse to fly any passenger for any reason deemed to put the safety of the flight at risk.	
Luggage Allowance	For Safety reasons Safari Air link operates with a strict baggage allowance of 15kgs maximum per passenger Total (including hand luggage) on all our flights. Clients MUST be aware that this will be strictly enforced by pilots for safety reasons. We urge you to remind your clients/agents of this limitation to avoid disappointing passengers at the airstrip. Luggage should be packed in Soft bags (soft duffel type bags are ideal) rather than rigid suitcases. Baggage ideally needs to fit within a 70 x 25cm baggage pod.	
Excess Baggage	Where excess luggage or photographic equipment is essential on the journey please request a quote per kg and book this well in advance of departure so that we can make contingency plans to handle the load. When excess luggage is carried it will be charged at the prevailing freight rate. The carriage of excess baggage is at the sole discretion of Safari Air link and will be determined after taking into consideration the number of passengers booked, the aircraft dispatched, airstrip altitude, and the fuel requirements determined by the distance to be travelled. The Captain is in sole command at all times and to stick to the strict safety guidelines will leave unplanned excess behind.	
Animals	Most of Safari Air Link routes are to/from National Parks and Game Reserves where domestic animals are prohibited. However where the carriage of such animals is permitted the carriage of animals is at the sole discretion of Safari Air Link and the Captain in command of the flight and subject to Safari Air Link receiving adequate notice and the animal travelling in a proper airline-approved container.	
CAA Requirements	The Tanzania Civil Aviation Authority regulations require that we submit passport details, passenger weights, and nationality for all passengers travelling on private & shared charters. This is important information to ensure the safety of all flights.	
Prices	In order to balance the passenger and luggage loads we may be required to deploy more than one aircraft and consequently there maybe occasions groups and their luggage may be split up. We would be grateful if you could inform your passengers of this eventuality to prevent awkward situations at the airstrip. All prices are subject to change without prior notice in the case of unforeseen events. Prices are Gross in US Dollars and are quoted one way. US Dollar fares maybe converted to the Tanzania Shilling equivalent using the rate of exchange prevailing at the time of purchase of the tickets.	
Notice of Government Imposed Taxes & Fees	Notice of Government Imposed Taxes and Fees: The price of a ticket may include taxes and fees (such as Landing fees & VAT), which are imposed on air transportation by government authorities.
